May QDUG Meeting

July 21st, 2010

Topics

- Bear Intelligence Website
- Charts and Cubes Demonstration
- EDW

Next Meeting

The next meeting has not been scheduled.

Bear Intelligence

In a joint effort by Institutional Research, Enrollment services, and Management Information Systems, a new website is available for Missouri state report viewers. The new website, Bear Intelligence – www.missouristate.edu/data, categorizes and organizes reports to make finding the information easier for users. Report categories have descriptions, instructions for use and a direct link to the Argos report associated. The path to the report in Argos is also included for navigation inside Argos. Security on this site is provided by standard Argos security.

Charts and Cubes Demonstration

Creating Charts and Cubes was demonstrated; classes on Charts and Cube creation are available on the QDUG website – classes' page. Charts and Cubes documentation are also available on the QDUG website – Expert Documentation – Training site.

If you are interested in taking a class on navigating cubes, institutional research offers this class. Class times and locations can be found at <http://www.missouristate.edu/oir/71833.htm>

Enterprise Data Warehouse (EDW)

Explained EDW purpose and how we are using it. Report using the EDW on located in Argos under Student – Campus wide Student. All EDW reports start with EDW. The dates of events for EDW snapshots are available on the QDUG website. If you need to request more dates, please contact the functional lead in your area.
